THE COMPANY

Supply Chain Optimisers (PTY) Ltd was founded in 2012 to meet the logistical needs of local and foreign EPC companies involved within the South African Governments REIPPP program. To date we have successfully project managed over 500MW of new build PV Solar Plants within the Utility, Commercial and Industrial Sectors.

We have Level2 B-BBEE compliance in South Africa and have completed projects in Namibia, Kenya, Zimbabwe, Botswana and Swaziland.

The Company has established itself as a reliable service management option for key EPC Companies and Component suppliers to the South African and African Renewable Energy Market.

VISION

It is Supply Chain Optimisers (PTY) Ltd goal to be the first-choice solutions provider to EPC and Sub-Contractor companies within the South African renewable sector. Since inception, our company continues to build credibility through its commitment to the construction process. We remain flexible and scalable.

OUR SERVICE MODEL

Our expertise in PV project management and planning allows us to design specific logistics solutions based on project location. Through our network of established service suppliers, we can support the full value chain involved with a particular project. We bridge the gap between all parties involved in the process –Component Suppliers, Carriers, Customs formalities, Transporters, Construction Site Personnel. Our role supports the mitigation of risk and Milestone Delivery Deadlines.
